

AWS Accounts – Workshop Studio

Baselhack

Using Workshop Studio for the labs

- Workshop Studio is a way for AWS to provide AWS accounts for events
 - These accounts are provided without costs to you
 - They will be available during the workshop and terminate shortly after
 - You will use your own email address to claim a one-time password for that account
- Steps:
 - Navigate to <https://catalog.workshops.aws/>
 - Choose a login method: One-Time-Password or personal Amazon.com account
 - If you used the One-Time-Password option, pick up the code from your email and enter it
 - Enter the code provided by your AWS host
 - Navigate to the AWS console

Step 1: Navigate to AWS Workshop Studio

Navigate to:

<https://catalog.workshops.aws/>

Click "Get Started"

AWS Workshop Studio

join hands on events and workshops

Find physical and virtual self-paced Workshops, GameDays, Bootcamps, Immersion Days, and other events that require hands-on access to AWS accounts.

Join an event

All you need is an event access code to join and get started with your event

Coming Soon!

What can you do here

- ✓ Join a scheduled customer engagement, such as a workshop, an Immersion Day, a bootcamp, an AWS GameDay, a hackathon, etc.

How AWS Workshop Studio Works

Scheduled events

1. Receive event access code

2. Join event by entering the code

3. Access provided AWS Account

© 2023, Amazon Web Services, Inc. or its affiliates.

Step 2: Select sign-in method

Choose either “Email One-Time Password” or “Login with Amazon”.

If you use the Email OTP option, you will be emailed a one-time password to gain access.

If you use the Login with Amazon option, you will use your Amazon.com account to gain access. This is only used for authentication. This will allow access to the temporary AWS account, and will not incur charges to your Amazon.com account.

Sign in

Choose a preferred sign-in method

Email one-time password (OTP)

Enter your personal or corporate email to receive a one-time password

Login with Amazon

Login with your Amazon.com retail account

Amazon employee

Login with your Amazon Corporate account. Only for Amazon Employees.

Step 3: Using the One-Time Passcode

If you used the Email OTP option, enter your email address. A passcode will be emailed to your email address. Next, enter that passcode into the Event Engine website to gain access.

One-time email passcode

Send a passcode to the email below.

Email

Step 5: Terms and Conditions

Description

Test event for content AIOps on AWS

Terms and Conditions

Read and accept before joining the event

1. By using AWS Workshop Studio for the relevant event, you agree to the AWS Event Terms and Conditions and the AWS Acceptable Use Policy. You acknowledge and agree that are using an AWS-owned account that you can only access for the duration of the relevant event. If you find residual resources or materials in the AWS-owned account, you will make us aware and cease use of the account. AWS reserves the right to terminate the account and delete the contents at any time.
2. You will not: (a) process or run any operation on any data other than test data sets or lab-approved materials by AWS, and (b) copy, import, export or otherwise create derivate works of materials provided by AWS, including but not limited to, data sets.
3. AWS is under no obligation to enable the transmission of your materials through Event Engine and may, in its discretion, edit, block, refuse to post, or remove your materials at any time.
4. Your use of AWS Workshop Studio will comply with these terms and all applicable laws, and your access to AWS Workshop Studio will immediately and automatically terminate if you do not comply with any of these terms or conditions.

Step 6: Open AWS Console

On the next page, click "Open AWS Console" URL link.

You now have access to the AWS Console

AWS Management Console

AWS services

Find Services

You can enter names, keywords or acronyms.

 Example: Relational Database Service, database, RDS

► All services

Build a solution

Get started with simple wizards and automated workflows.

Launch a virtual machine

With EC2

2-3 minutes

Build a web app

With Elastic Beanstalk

6 minutes

Build using virtual servers

With Lightsail

1-2 minutes

Access resources on the go

Access the Management Console using the AWS Console Mobile App.
